

## Fernando

### How he's getting on:

**Fernando** is a good boy who likes to help around the boys' home where he lives. He is quite shy but as he gets older he is growing in confidence. He has begun to spend more time thinking about God and dedicating his time to Him, because he says God has changed him and he is grateful for that.

Recently Fernando has been struggling a bit at school. He doesn't really feel motivated to do his homework or take in anything he is taught. Despite this, his teachers say there has been a bit of improvement in the past few weeks and they are encouraging him to work a bit harder.

Fernando's best friends are Romario, Manuel and Miguel (who is the other Ambassador for Pequeño David). They enjoy playing board games together, and Fernando also likes computer games, football and basketball.

The Ambassadors have been busy this year and Fernando has taken part in various campaigns and workshops, as well as the World Weekend of Prayer for Children at Risk, which took place in June.

Fernando has asked if you could pray for his family, especially for his relationship with his grandmother who often upsets him. Please also pray that Fernando will continue to grow in confidence, and that his teachers will be able to help him to achieve all he is capable of.
